**Subject:** Exide

Brian/Robert,

Thanks for a copy of the original Part A (ISP) submission. In reviewing EPA Region 9's limited Exide file, I came across correspondence (circa 1986) from DTSC to Exide approving modification to Part A. Do we know how many modifications have been approved? Is it possible to get copies of all the interim status DTSC approved modifications since the predecessor to Exide submitted Part A (ISP) to the most recent modification approval? If there has been a spreadsheet that can be provided to EPA that summarizes all the interim status DTSC approvals that would be much appreciated. The original Part A will not sufficiently prepare me for this week's inspection.

Note: When I refer to Exide, I referring to all previous owners/operators of the facility (e.g., Gould, Inc.)

Looking for to meeting and working with you all.

Thanks bunches,

John
